- Less than 1% defective rate

SMART AND SLEEK DESIGN

- Portable and convenient to carry.
- Wide array of stylish colors and sleek designs.
- Aluminum housing for durability and safety.
- Engineered with smart chip technology to prevent damage to devices.
- Crafted under Apple MFi licenses and guidelines.
- Meets CE, ISO9001, ISO14001, and ROHS standards.
- Made with lithium ion battery technology.

The worldwide Portable Charger market is expected to grow from 2.5 billion units in 2012 to 4.1 billion units in 2017 yet 85% of mobile phone users in the US reportedly do not carry a battery backup. With so many individuals carrying mobile devices including smartphones, MP3 players, tablets, GPS units, cameras, and eReaders, having a secondary portable charger is no longer a luxury, it's a necessity.

Powerocks are perfect for travelers, busy moms and dads, students, the outdoor enthusiast, the savvy techie, event goers from concerts, events, games, and tailgating, and those who need a back-up power source in case of an emergency. Powerocks put mobile power in the hands of those who need it most, to keep you connected even when you're far from an outlet.

Powerocks are powerful, fast, and reliable. They have a smart design with convenient features.

Powerocks, the creator of an innovative line of compact and powerful portable chargers for a variety of mobile devices, such as smartphones, MP3 players, tablets, GPS units, cameras and e-readers are the first portable chargers made with lithium ion battery cell technology. Safe and reliable, with a defective rate of less than 1% across all product lines, Powerocks are the must-have portable charging solution for anyone who is on-the-go and needs a quick recharge.

Conveniently small, yet incredibly powerful, the Rose Stone will charge your mobile devices safely, quickly, and reliably when life takes you away from an outlet. Available in 6000 mAh capacity, the Rose Stone will rapidly charge multiple devices and fits easily in a briefcase, purse, or backpack. The Rose Stone is composed of three dismountable function modules: a charging module, an output module, and a battery module. Powerocks is best source of portable charging from the lecture hall to the airport, the mountain trails to the shopping mall, it will give you enough power to fully charge most smart phones 3 – 4 times or use the dual USB outputs to charge multiple devices simultaneously. With over 500 charging cycles, Powerocks will keep you charged up at all times.

The Rose Stone comes with a USB to micro USB charging cable, user manual and carrying case. LED lights indicate the amount of charge left in the Rose Stone ensuring that the user always knows how much charge remaining. Available in several stylish colors!

MSRP:	\$39.99

POWEROCKS THUNDER POWER

Powerocks Thunder Power will charge a range of mobile devices when life takes the user away from an outlet. With 9000mAh capacity, a fully charged Thunder Power can recharge a typical smartphone three times and tablets two times before requiring a recharge. Plus its dual USB outputs at 2.1A and 2.4A have what it takes to charge up to two tablets at once.

Thunder Power 9000mAh

MODEL PR001

BATTERY CAPACITY 9000mAH

COLORS Black, white, orange, yellow, red, blue, green

INPUT VOLTAGE 5V/2.0A

OUTPUT 1 5V/2.1A

OUTPUT 2 5V/2.4A

WEIGHT 6.77 oz.

DIMENSIONS 4.41" x 2.6" x 0.91"

PACKAGE CONTENTS Thunder Power, user manual, micro USB cable

CHARGING CAPABILITY A fully charged Thunder Power can charge an iPhone 6 up to four times and an iPhone 6+ more than three times. Thunder Power will also charge other USB-powered devices such as smartphones, tablets, MP3 players, GPS devices, cameras, e-readers and Bluetooth headsets.

TO CHARGE THUNDER POWER Connect Thunder Power to a PC/Mac USB port or other power adapter using the included micro USB cable. When recharging, Thunder Power's LED indicators will flash continuously. Pressing the power button will indicate the battery's current charge.

TO CHARGE DEVICES Connect the USB-powered device to one of Thunder Power's USB ports using a cable appropriate for your device. Thunder Power will auto-sense the connection with many devices. If charging does not begin automatically, press Thunder Power's power button to manually initiate charging.

LED STATUS INDICATOR Thunder Power's battery status is approximately indicated by the LED lights.

1 light = 25% charged

2 lights = 50% charged

3 lights = 75% charged

4 lights = 100% charged

Powerocks, innovative line of compact and powerful portable chargers for a variety of mobile devices, such as smartphones, MP3 players, tablets, GPS units, cameras and e-readers are the first portable chargers made with lithium ion battery cell technology. Safe and reliable, with a defective rate of less than 1% across all product lines, Powerocks are the must-have portable charging solution for anyone who is on-the-go and needs a quick recharge.

Conveniently small, yet incredibly powerful, the Magic Cube will charge your mobile devices safely, quickly, and reliably when life takes you away from an outlet. Available in three escalating capacities, 6000, 9000, and 12,000 mAh, the Magic Cube will rapidly charge multiple devices and fits easily in a briefcase, purse, or backpack.

The higher mAh ensures that you can charge higher capacity devices like tablets or smaller devices several times before needing a recharge. With over 500 charging cycles, Powerocks will keep you charged up at all times. The Magic Cube comes with attached charging hardware as well as a free USB drive to connect to an additional device. Convenient LED lights indicate the amount of charge left in the Magic Cube ensuring that the user always knows how much charge is remaining. Available in several stylish colors!
